What is RTI ?

Response to intervention integrates assessment and intervention within a multi-level prevention system to maximize student achievement and to reduce behavior problems. With RTI, schools identify students at risk for poor learning outcomes, monitor student progress, provide evidence-based interventions and adjust the intensity and nature of those interventions depending on a student's responsiveness, and identify students with learning disabilities or other disabilities. To learn more about RTI, see the **Essential Components of RTI – A Closer Look at Response to Intervention.**

RTI Resources

RTI State Database

The RTI State Database provides resources on a number of topics related to RTI. The resources, which range from policy documents and briefs to trainings and tools, were developed by states or territories, in the U.S. who are in different stages of implementing RTI.

What's New in RTI?

Call for Instructional Programs!

The Center's Instructional Technical Review Committee is now accepting submissions of instructional programs. The deadline for submission is December 30th. All interested vendors are invited to submit.

Click here for more details.

The Essential Components of RTI: Screening

In this webinar, Amy Peterson provides an overview of universal screening, why screening is important and how to use screening data to make data based decisions. View this webinars from our website at your convenience or download it to your iPod or other device to watch on the go. After viewing the webinar, e-mail your questions to RTIWebinars@air.org.

New Screening Tools Chart!

We are pleased to announce the release of the 2010 Screening tools chart! The information in the chart is intended to assist educators and practitioners in making informed decisions about scientifically based tools that best meet their individual needs. This chart represents the results of the third annual review of screening tools by the Center's Technical Review Committee.

Instruction Tools Chart

The Center is pleased to announce the release of the Instruction Tools Chart! This chart represents the results of the first annual review of research studies of instructional programs by the Center's Technical Review Committee (TRC). The chart provides ratings on the quality of studies demonstrating efficacy for instructional programs used within an RTI context. The National Center on RTI publishes this tools chart to assist educators and families in becoming informed consumers who can select instructional programs that best meet their individual needs. Please note that the Center does not endorse or recommend the programs included in the chart.

WHAT'S NEW?

Selecting Evidence-Based Tools and Programs for Implementing Response-to-Intervention

In this webinar, Dr. Allison Gandhi, provides an overview of the screening, progress monitoring, and instructional tools charts, describes the information that they provide, and walks through the process that teams can use when selecting an appropriate tool.

A live, online chat took place on October 21st from 2:00 - 3:00 pm Eastern. At this time, Dr. Gandhi provided answers to question that were submitted via e-mail as well as additional questions that arose during the online chat. A transcript of this chat will be posted within the next few days.

Non-ELL – ELL Achievement Gap (NAEP) 36 points in 2009 for 4th grade reading

RTI Goals Related to Addressing Disproportionality and the Achievement Gap

- ❖ Close achievement gap between students from culturally/linguistically diverse backgrounds and their peers
- ❖ Provide coordinated early intervening supports in order to prevent escalation of learning or behavioral challenges
- ❖ Reduce inappropriate identification of students to special education
